# **GENERAL INFORMATION**

**STUKE NURSERY CO.**, a California Corporation, is located on the 99E Highway in Gridley, Butte County, California. For the past thirty-three years we have specialized in the growing of choice walnut stock. We also carry a full line of other fruit and nut trees. The most important single nursery operation is the cutting of the budwood. Your orchard will be no better than the budwood from which it came. Therefore, we choose budwood from the best producing trees, with tonnage records, so that we can offer high producing strains in all varieties. Budwood is selected personally, by Mr. Stuke.

## **TERMS**

Discounts are allowed on orders placed prior to budding season and fully paid within thirty days after delivery of the trees. No discount on Royalty, packing and shipping. Twenty percent of the amount of the order must accompany each order to insure it being reserved. Open accounts are due and payable upon delivery unless terms are arranged in advance, or credit has previously been established. Interest will be charged at one percent per month after sixty days or ten percent per annum. Packing and material is at cost. In California the law requires that a 3% sales tax plus a 1% uniform sales tax be added to the amount of the purchase. All prices quoted in this catalogue are F.O.B. Stuke Nursery Co. sales yard.

## **DELIVERIES**

Where necessary, we deliver to within a radius of thirty miles of our Nursery without charge. Beyond that area delivery is made at cost.

## **SHIPPING**

Our trees are well packed to insure against damage by freezing, drying out, etc. while enroute to their destination. Shipments are made by motor truck, express, rail freight or the fastest most economical method.

## **CONTRACT GROWING**

We shall be glad to grow any varieties to order. For walnuts, orders must be in before March 1st. On June buds before May 1st.

# WALNUT'S

## *Selected Seed*

The seed we use is selected from the best sources of Northern California Black Walnut stock to have as pure a strain of rootstock as possible.

Our walnut trees have well branched roots and are not spike rooted. They are budded nine to sixteen inches above the surface of the ground. This gives you the advantage of the Black Walnut Rootstock an adequate distance above the surface—an important feature.

Buds for all varieties and strains budded are taken from the best producing orchards and are selected by Mr. Stuke personally.

## WALNUTS

## NON WARRANTY

We handle our stock in the best possible manner to keep it in a live, healthy condition. We cannot guarantee growth or be responsible for the stock in any way after reaching its destination. Seller exercises great care to have all nursery stock true to name and grade, but it is understood that should any stock prove otherwise, Seller shall not be liable, excepting for the return of the purchase price paid for such stock as proved untrue to name and grade. Seller accepts all orders on condition that they shall be void, should injury befall Seller's stock from fire, frost, floods, drouth, disease, miscount, or any cause whatsoever, whether such cause be ascertained or not; and is released from filling orders. It is also understood that orders travel at the risk of the purchaser.

## INSPECTION

Our stock is grown under the best of soil and cultural conditions and with all possible precaution against disease. Rigid inspections by County and State Agricultural Inspections are gladly met for your sake, as well as our own. The State Law requires that all nursery stock must be inspected by your County Agricultural Commissioner immediately upon its receipt by you. This inspection is for your protection and purchasers should cooperate to the fullest with the Commissioner's office. Our stock is free from disease and pests, and may be shipped anywhere. We guarantee it to pass inspection and stand any loss occasioned by its failure to do so.

**BUDWOOD** - Buds for all varieties are only taken from carefully inspected trees from the best producing orchards.
